SUBJECT: You and your bozo employees!!!!

Dear Mr. Simpson,

I would first like to apologize profusely to you and your employees who had to deal with this mess as I can only imagine how bad it was. I completely understand your feelings towards this incident and towards Dunder Mifflin. I would like to start by saying that Dunder Mifflin will be paying to replace the 30 items that had to be disposed of and will be donating an additional 120 items to the food drive. I will be going out personally to gather the items and to deliver them to you.

I will be conducting an investigation into who is responsible for putting those items into the donation bin. You will receive an apology letter from said employee(s) and they will be punished accordingly. I am horrified that this has happened and if you decide to continue your relationship with us I will be changing how we do things in the future to ensure that this never happens again. The Donation bin will be moved to my office as well as nightly checks of items placed in the bin.

I should have been checking the Bin and better overseeing the food drive. It was an oversight on my end and I greatly apologize for this. Moving forward I will do things differently to ensure things are being done the right way. If there is anything else that I can do for you or for the Hungry Hearts Foundation please let me know. You can either reach me by email or by phone at (405) 744-8674. I am also available in the office from 9am-4pm.

Very Respectfully,

Roger Bennett
